JAPANESE MOWED DOWN ALMOST BY REGIMENTS

that only the fort walls or a few yards of level ground separated them. The struggle from start to finish was at close quarters with bayonets and

Died at Their Posts. The ferocity of the attacking Japan-ese was equalled by the defending Rus-sians, who died at their posts every-where fighting till their last breath. At daylight on Nov. 27 quiet reigned and the silence during the day was broken only by occasional cannon and QUIT SCHOOL EARLY. desultory rifle fire at points along the fortified ridge, where the forces were far enough apart to use their rifles.

METRE HILL FIGHT.

London, Dec. 10.—According to the Morning Post's Shanghai dispatches, the Japanese forces, with the exception of those manning the forts, have aiready retreated to Laote mountain. Details continue to filter in of the capture of 1263-Metre hill. The Daily Telegraph's correspondent before Port Arthur explains that the capture was due to a strong feint against the eastern fortifications on the night of Dec. 5, which the possession of 203-Metre hill, being an enfilading one, forced the Russians to evacuate without a contest, to a parallel line of semi-permanent defenses extending eastward and irregularly over the slopes within a half-mile north of Etse mountain.

Exceptional children, rather than spend a deal of time on those who are slow to find it difficult to understand their lessons ought not to retard the bright pupils. They are a small class and should receive no more attention than any others, he believes. The bright boys and girls ought to be helped along for

Heavy Casualties.

The Japanese casualties at 203Metre hill alone exceeded the total of the battle of Nanshan, according to the Daily Mail's Tokio dispatches. At 2 o'clock in the afternoon of Nov. 29 a Tomoyasu detachment, with a battallon of infantry and a company of engineers, received orders that they must capture 203-Metre hill, while a Yoxid detachment of the same strength.

Letter Sent to Principals. Yosid detachment of the same strength had similar orders to capture Akasaka hill. On Nov. 30 it became necessary to reinforce the attackers with a detachment under Major Shizuta. During the operation the cold was so intens that many of the men were frostbit ten, as it was necessary to pass the night without shelter. The Japanese after the capture of 203-Metre hill an-ticipated a terrible bombardment from the Russian forts, and made prepara-tions accordingly, but the Russians remained strangely quiet.

Mine Clearing Resumed.

The same correspondent says that the Russians at Port Arthur on Dec. 7 resumed mine clearing operations presumably to enable the torpedo boat destroyers to attempt to escape and join the Baltic squadron. The Daily Telegraph's Tien Tsin cor-

respondent reports that General Oku, after a three days' artillery engagement, drove the Russians on Sunday out of the small lofty island of Gu-shan, in the river ten miles belong Liao Yang. The Russians, it is added, abandoned a quantity of supplies and several guns, and retired to a posi-tion aight miles porthwest whence tion eight miles northwest, whence y heavily bombarded the Japanese setting fire to a kerosene depot and causing a great conagration which did not cease till Wednesday. The Japanese are still gallantly hold the island with a handful of men. Their casualties, it is alleged, number 500.

HUNTINGTON OWNS HALF.

Los Angeles, Cal., Dec. 9.—It is confirmed, says the Express today that Henry E. Huntington has purchased the interests of L. W. Hellman, C. E. Deguinne and Antone Berol in the Pacific Electric & Los Angeles Interurban railways. The purchase is said to amount to about 14 per cent of the stock of the Huntington outside lines, Huntington owns an exact half interest in the two roads, the remaining shares being held by E. H. Harriman and associates. The capitalization of the two roads is \$10,000,000 each.

FAIR AVERAGE

Ninety-Five Per Cent of Pupils Have Good Brains.

PROF. ENGLE GETS FIGURES

Prof. John C. Engle of the department of sociology of the State Agricultural college, who recently expressed Japanese Said to Have Suffered Enor- | some radical views in regard to the education of extra bright pupils and dullards, is compiling some statistics to ascertain what proportion of school children have normal intellects and what per cent of them are below the average in intelligence. In his address to the city teachers he said that he believed more attention should be given to the ordinarily bright and the exceptional children, rather than spend a deal of time on those who are slow to learn. His idea was that the ones who find it difficult to understand their lesand girls ought to be helped along for they are to rule the land, while the

Letter Sent to Principals. In compliance with his request, Su-crintendent Nelson sent the following letter to the principals of the Salt Lake

"No. 27. "Salt Lake City, Utah, Dec. 5, 1904. "Salt Lake City, Utah, Dec. 5, 1904.
"To Principals:
"The following letter has been received from a prominent educator of this state:
"What percentage of the boys and girls in the Salt Lake City schools are to be classed as normal boys and girls, and what percentage as dullards? The words "normal" and "dullard" are to be used in their ordinary acceptation.
"Please be kind enough to report the percentage of each in your school not later than Wednesday of this week.
"Very truly.

Very truly.
"D. H. CHRISTENSEN,
"City Supt. of Schools.

Percentage of Intelligence. Last evening he compiled the following table from the information given in re-

trying to learn when they have reached the fifth grade. Most of them come from that portion of the population who do not attend school any more than is absolutely necessary. They believe they can get along faster in the world by working instead of attending school.

An average of all the schools in the city show that but 4.6 per cent of all the children attending school are below the normal in intelligence. The principal of the Sumner school reported that all the children attending there were of average intelligence; while 12 per cent of those pupils at the Sumner school are not up to the normal in school are not up to the normal in

ability to study.

Mrs. Chadwick, the statement printed today that the securifies are valueless is not authentic., Mr. Reynolds

by any information in regard to the genuineness of the securities that I hold of Mrs. Chadwick could have become known. You may say for me that any rumors in regard to their being worthless could not have arisen from any knowledge gained about them in the last few days. This is true for the reason that they have been jcalously guarded against inspection by any one."

any one."
"How then could any information in regard to their character have become known?" Mr. Reynolds was asked. "There is no authentic information; he said. "There can be none. I have not given the least hint about them." Is there any ground for the belief that the securities are worthless?"

Would Not Answer. "I have said that I will answer no I have said that I will answer no questions in regard to these securities. Only on the witness stand will I make known what they are. The case cannot be tried out of court. These securities were turned over to me as trustee, and I will say nothing about them except as trustee," was the banker's reply.

Regarding the attest for \$5,000,000

Regarding the attest for \$5,000,000 which he is said to have made, Mr. Reynolds also declined to make a state-"The attest involves too many other questions," he said, "and I may be able to enlighten the public about the securities and the attest tomorrow in the suit which Mr. Newton has brought

against Mrs. Chadwick to recover the money that was lent." REYNOLDS TO BLAME.

How the Brookline Banker Was Separated From His Money.

Boston, Dec. 9,—Concerning the crediting of Mr. Newton with hoping for a settlement with Mrs. Chadwick tor a settlement with Mrs. Chadwick through John D. Rockefeller on the assumption that he would not wish to have the name of his pastor. Rev. Charles Eaton of Cleveland, dragged into the affair, he said:

"There is no truth in the affair, but not through Mr. Rockefeller.

"Mrs. Chadwick represented to me that she had certain securities in the care of Mr. Revnolds and I was shown.

care of Mr. Reynolds and I was shown an affidavit signed by him stating that he had in his possession stocks and bonds belonging to her valued at \$5,000,000 and upwards. I don't understand that there is any question concerning the genuineness of this officers.

stand that there is any question con-cerning the genuineness of this affi-davit, and on that I rest my case. 'I did not see the securities. I did not think it necessary, considering the name signed to the notes, and Mr. Reynolds as voucher for her owner-ship of the \$5,060,000. "I took the trouble to visit Cleve-land. I did not see Mr. Reynolds, but I was assured that the securities were

d pastor was an uncle of the Bos-

Upon the report that the Chadwick Upon the report that the Chadwick securities held by Mr. Reynolds had been found to be worthless, Mr. Newton refused to comment until the report had been officially confirmed.

Mr. Newton would not say that he haped for a settlement from any source other than Dr. Chadwick, but gave the impression that he had not wholly despaired of recovering something from the questioned securities. rom the questioned securities

Reynolds Fooled Him.

On this point he said: "Had I not been given a sworn statement by Iri Reynolds to the effect that he had in his possession \$5.000,000 worth of collateral belonging to Mrs. Chadwick, I would never have lent her the money. When the treasurer of a city banking institution certifies that col-lateral in his possession is worth a stated amount, there is no reason to doubt the genuineness of his represen-

The information was given out tohight that criminal proceedings would probably be issued against Mrs. Chadwick in Massachusetts if the securities held by Iri Reynolds should prove worthless. It was explained that under the Massachusetts law Mrs. Chadwick ould be prosecuted for larceny, ob-alning money under false pretenses be-ing classified under that term. It was in Boston Ahat Mr. Newton advanced he money for which he is now suing, it was also in Boston that Iri Reynolds' ertificate was presented as well as a lote bearing the signature of Andrew Carnegie. All of the actual business Carnegie. All of the actual business between Mr. Newton and Mrs. Chad-wick was conducted/in Massachusetts.

Mysterious Millionaire.

The Post tomorrow will say: Herbert D. Newton has not yet suc ceded in recovering the \$190,800 which as says he lent Mrs. Chadwick, but he till says he possesses strong hopes of

overy. 'Not upon the Cleveland woman does e base his hopes, but upon the belief hat a certain millionaire, whose name e has agreed not to utter, will finally me to the woman's rescue.
'Meanwhile a civil suit for \$50,000 is

in progress again Mr. Newton. The suit is brought by E. E. Williams, a bank officer of Elyria, O., in an attempt to recover from Newton on ac ommodation notes signed by Newton o ald Mrs. Chadwick.

THE GUARDIAN OF OUR BODY.

The foremost biologist of our day, M. Metschnikoff, has shown the world of science that there are leucocytes in our blood that act as scavengers or policemen. These policemen which are called phagocytes look out for the noxious or poisonous elements in our blood. Various offending elements in our blood. Various offending elements are picked out of the blood and tissues by these policemen and destroyed. Therefore our lives are protected by these blood-cell-policemen, the phagocytes, and we enjoy immunity from disease so long as our blood contains plenty of phagocytes and red blood corpuscles.

"A new broom sweeps clean"—and in order to put our own house in order we must get rid of all the poisons in the blood with a new broom such as an alterative extract made from roots and herbs—without the use of alcohol, as Dr. Pierce's Golden Medical Discovery, a specific for making rich red blood—for eradicating the poisons from the blood. In some way the policemen in the blood are increased in number and strength—so that we are put in the best possible shape to resist disease—to cure neuralgia, colds, catarrh, and incipient consumption.

"The more study and time is given to the

to cure neuralgia, colds, catarrh, and incipient consumption.

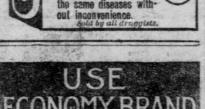

"The more study and time is given to the subject the more we find that the blood is the center of life"—says Dr. R. V. Pierce, the noted specialist of Buffalo, "the health and comfort of the average person depends entirely on this blood supply—for the heart must have pure blood or it will not pump and keep the body supplied regularly like the beautiful automatic engine it is. The nerves must be fed on pure blood—or we suffer the pain of neuralgia, which is the cry of the starved hereds for food. Headaches, cold in the head, catarrh—and many other things are due to stagnation of the blood."

Dr. Pierce's Pleasant Pellets are a mild laxative. No other medicine equals them for gentleness and thoroughness.
